„Polska Siarka” Sp. z o. o. with its seat in Sandomierz („The Company”) recommends M. Wojciechowska & Partners Legal Office with its seat in Rzeszów („The Legal Office”), as a reliable and proven partner in providing legal services for business entities.

The Legal Office participated in the whole investment process related to constructing the world's second sulfur extracting mine -*Kopalnia Siarki Basznia II*, located in Podlesie village, Lubaczów municipality. A team of Legal Office’s lawyers supported the Company both in the process of obtaining all related consents and permits/concessions for the sulphur extraction, as well as throughout the process of implementing the investment through the process of preparation, opinioning and negotiating construction contracts, specific work contracts, supply contracts, provision of services contracts etc. During this period, the lawyers of the Legal Office rendered to the Company corporate services, connected with, among others, raising own and outside capital necessary for the investment. The project was being implemented by the Legal Office for a period of 27 months, and the total value of the project was about 100 million PLN. The project ended up with getting permission to use at the end of December 2018.

The Company recommends the Legal Firm to all entities looking for experienced lawyers in the field of construction law, civil law, administrative law and corporate law, with a high professional level, who in a timely manner, and with engagement will provide their services.
